

Things to Know and People to Pray For

February 16, 2020

Those Sick and Needing Prayer

Leon's mom, **Winn McCarty**, went home from the hospital last Tuesday. The doctors determined that she had blood clots and yeast in her lungs. She is currently on oxygen and is being treated for the yeast in her lungs and is taking blood thinners to try and dissolve the blood clots.

Wanda would like prayers for her daughter, **Railene**. She fractured her hip and needs our prayers for her recovery and health.

Wanda's great granddaughter, **Piper**, has been diagnosed with EPP Porphyria, a condition that she cannot have any sunlight touching her skin. Fluorescent lighting also affects her condition. Piper is 8 years old and this is a life condition. Please pray for Piper and her family.

Wanda's oldest daughter, **Lori**, has shingles.

Ruby would like prayers for **Patty**, who is one of the workers at her complex. Patty has 4 kids and is pregnant with her 5th. She and her family were displaced when the fire happened in Calimesa. She was hospitalized with high blood pressure and diabetes but is now home. She is living with a co-worker until they find a new place to live. They had just purchased the mobile home when the fire happened and they lost everything.

Julie Pryor would like prayers for her and her family. She has a granddaughter who is 11 years old who will be seeing a cardiologist soon and a sister who will be having neck surgery soon. She also has a friend who will be having back surgery.

Update on **Connie Wheeler**. April took Connie back to the hospital to have her staples and stitches removed. She will go back to see the doctor in 2 months. She thanks everyone for their cards and prayers.

Judy Guite would like to thank everyone for their prayers, her beautiful birthday cards, and for everyone who has given her rides to her doctor's appointments.

Please Continue to Pray for

Carla Domen, cancer
Clara Almand
Dieter Klase & his family
