Those Sick and Needing Prayer

Dieter's wife, **Jill** is having Afib issues. Afib is an irregular, often rapid heart rate that commonly causes poor blood flow. She is starting to feel a little better.

Dieter is asking for prayers for his nephew William Kissack and his wife Mandy, they just lost their newborn baby.

Roy Manning, Dave & Jeanie's nephew who was in a bad car accident several weeks ago, is now awake and responding. He is talking but still not able to eat on his own. Please continue to pray for Roy and his family as he has a long road ahead of him.

Rosa Corona would like your prayers as she will be having a major surgery on left leg. She's in a wheelchair and can't walk at this time.

Judy Guite needs our prayers for strength.

Please continue to pray for our upcoming Door Knocking Outreach Ministry.
If we plant the seeds, God will do the rest.
